

## PSYX 348 - Exam 1 Review

**Notes:** This review is limited to the dates and statistics that you will be responsible for knowing on the exam. Prevalence rates are often included in the lecture slides, which are the default source for statistical information that will be asked about on the exams.

- Decade in which child abuse became a recognized social problem in the US
- Decade in which all states completed outlawing marital rape
- Lifetime prevalence of child maltreatment & lifetime prevalence of child physical abuse (according to the NatSCEV II)
- Percentage of women who experience childhood sexual abuse (lvl 1 estimate)
- Percentage of men who experience childhood sexual abuse (lvl 1 estimate)
- What proportion of substantiated cases of child abuse receive intervention?
